

## **HIGHLIGHTS OF CABINET MEETING – FRIDAY 10 JANUARY 2025**

1. Cabinet has taken note of figures published by the Bank of Mauritius regarding the status of the Gross Official International Reserves of the country as at end December 2024. The figures indicated an increase of around Rs81.3 billion in the Gross Official International Reserves for the period December 2023 to December 2024.

Cabinet further noted that these figures did not, however, reflect the real state of the economy and that they were in fact gross figures.

- (i) The figures included higher deposits of Commercial Banks which did not belong to the Bank of Mauritius;
- (ii) The figures also included international loans from international Banks and one foreign country, contracted by the Bank of Mauritius which led to an increase in the national debt, and these would have to be reimbursed; and
- (iii) The figures did not take into account the depreciation of the Rupee by 6.3% in 2024, which led to an artificial increase by Rs25 billion of the Gross Official International Reserves.

Cabinet noted that it was thus misleading to state that the above showed that the economy was doing well.

2. Cabinet has taken note of the prevailing situation regarding Human Metapneumovirus and the preparedness measures in place in Mauritius. Public health surveillance had been enhanced through thermal scanning within the arrival lounge and reinforced screening activities by Public Health and Food Safety Inspectors at both airport and seaport for incoming passengers from China. Enhanced public health surveillance was being exercised in respect of incoming passengers from countries neighbouring China, namely Singapore, Hong Kong, Japan and South Korea.

The Communicable Diseases Control Unit of the Ministry of Health and Wellness was closely monitoring the situation in line with the existing Operational Plan on Influenza. The following actions were also being taken –

- (a) issue of circulars to public hospitals and private health institutions to create awareness and call for preparedness amongst health personnel;
- (b) monitoring of stock of basic personal protective equipment, including sanitizers, as well as pharmaceutical products;
- (c) a sensitisation campaign through talks on radio and TV to inform the public of the basic precautionary measures to be taken on influenza-like illnesses; and
- (d) reinforcement of PCR testing capacity of the Central Health Laboratory to strengthen laboratory surveillance.
